AUTHORITY AND REFERENCE

Authority for these regulations is found in Education Code section 33031. Education Code section 33031 is the State Board's general authority to adopt rules and regulations for the government of the day and evening schools of the state that are not inconsistent with the requirement of statute.

References are made to Education Code sections 41420, 46301, 47612, and 47612.1. These statutes govern individuals who may be claimed for apportionment purposes as pupils in regular attendance in kindergarten and any of grades one through twelve, inclusive, in the public schools.

INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

Education Code section 47612(b) states in pertinent part:

...To remain eligible for generating charter school apportionments, a pupil over 19 years of age shall be continuously enrolled in public school and make satisfactory progress towards award of a high school diploma...

In keeping with law, the State Board adopted a definition of “satisfactory progress,” which is contained in California Code of Regulations, Title 5, Section 11965(b). In pertinent part, this definition states:

...[Satisfactory progress (for non-special education pupils)] means uninterrupted progress (1) towards completion, with passing grades, of the substance of the course of study that is required for graduation from a non-charter comprehensive high school of the school district that authorized the charter school’s charter, that the pupil has not yet completed, (2) at a rate that is at least adequate to allow the pupil to successfully complete, through full-time attendance, all of that uncompleted coursework within the aggregate amount of time assigned by the chartering agency for the study of that particular quantity of coursework within its standard academic schedule. If the chartering agency is not a school district having at least one non-charter comprehensive high school, the applicable high school graduation requirements and associated time assignments shall be those for the comprehensive high school(s) of the largest unified school district, as measured by average daily attendance, in the county or counties in which the charter school operates.

...[Satisfactory progress (for special education students)] means uninterrupted maintenance of progress towards meeting the goals and benchmarks or short-term objectives specified in his or her individualized education program...until high school graduation requirements have been met, or until the pupil reaches an age at which special education services are no longer required by law.

Under the provisions of Education Code section 56026, special education students are defined, in effect, to be students who have an impairment (as defined by federal law) that requires instruction, services, or both, which cannot be provided with modification of the regular school program and who are less than 22 years of age. An exception is provided for students whose 22nd birthday will occur during the months of January to June, inclusive, of an academic year; they are allowed to participate in a program for the whole of that academic year.

The specific language of Education Code section 47612(b) (“...To remain eligible...”) clearly expresses the intent and expectation that a pupil be enrolled in a public school in pursuit of a high school diploma as he or she leaves 19 years of age and becomes 20 years of age as one qualification of being “continuously enrolled” for apportionment purposes. A specific exemption to the requirements of Education Code section 47612(b) is set forth in Education Code section 47612.1, which is taken into account in the regulations.

In order to ensure that the clear intent of Education Code section 47612(b) is met, the regulations preclude a charter-authorizing entity from claiming individuals as K-12 average daily attendance who are not claimable by a charter school under the regulations. Absent such a preclusion, which is not inconsistent with any provision of law relating to non-charter public schools, a charter-authorizing entity could claim the individuals and assign them to the charter school for instructional purposes, thus defeating the statute’s clear intent.
